

# Speaking Practice Test 1

## PART 1 City or Country

Do you prefer to live in the city or in the countryside?
What do you think are the main advantages of each?
What would you say are the main problems of living in a city these days?
And what would you say are the main problems of living in the country?

## PART 2

Describe an environmental problem which exists in your country at the moment. You should say: <ul style="list-style-type: none"><li>• what the main problem seems to be</li><li>• for how long, approximately, it has been a problem</li><li>• who it affects mainly</li></ul> and also say what is being done or what could be done to alleviate the problem.
--

## PART 3

### Discussion Topics: Government Responsibility

Do you think the governments of the world are doing enough to preserve our environment?
What kind of information do the government in your country provide about these issues?
Do you think the general public could do more to help the government with the task?
What would you like to see happen with large industries and their role?
